

# Drawers Assembly

Kennedy, Dewey, Harding & Kennedy Hydraulic Series

## 1. Assemble drawer when you assemble the frame.

Slide the two female tabs on the bottom of the drawer case onto the male tab on the bench frame. It will only slide on straight if it is properly centered. (The drawer is removed from the case to make this photo, but you don't need to remove it before assembly).

## 2. Reinstall and tighten the two bolts. You're done!
