

Roosevelt Series Bench Assembly

1. Place the bench box on top of a table or other elevated surface to make work easier. Now open the flaps on the box, fold them down, but do not remove the box.

2. Find the predrilled holes at each end of the top which match the hole pattern in the upper frame. Insert screws in every hole.

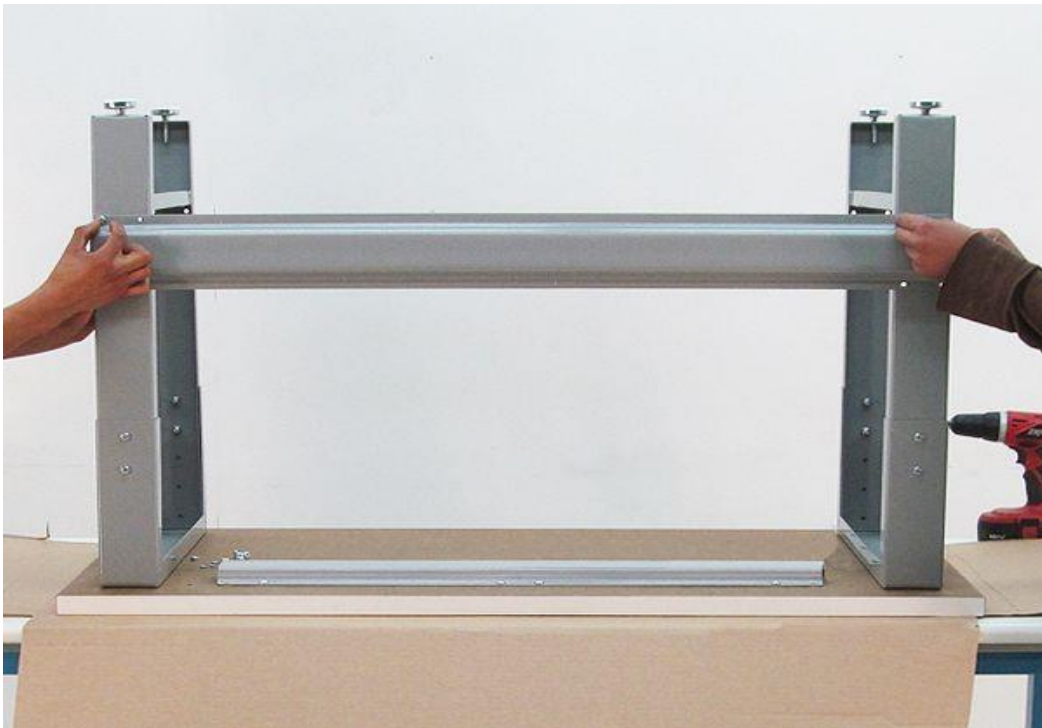

Roosevelt Series Bench Assembly

3. Slide the adjustable leg set into the upper bracket until it is in position to give you the desired height. Attach with fasteners provided. Tighten securely.

4. Line-up and install leg reinforcing bar across the back legs. **You're done!**

Roosevelt Series Bench Assembly

5. Have someone help you turn it over.
